P2SA Division  P2SA Activity

**FOREWORD BY PERODUA  
AUTO CORPORATION SDN BHD,  
PRESIDENT AND P2SA ADVISOR**

On behalf of Perodua, we would like to express our gratitude to P2SA's full support which helped us achieve a record production of 368,100 units last year, an increase of 7.2% from 2023.

Your continued hard work and dedication is a testament that we can meet any target and overcome any obstacle if we work together in harmony.

This harmony will be needed in the years to come as the world economic condition is filled with uncertainties and our own automotive industry will face greater challenges ahead.

For now, we are still in a strong position domestically and some of P2SA members are making progress in terms of expansion and operational improvements, what we need now is to focus on opportunities we can take advantage of in this new reality.

Lets's continue working together and embrace new possibilities with confidence.

Thank you,

**Mr. Masaki Ogita and YBhg. Datuk Ahmad Suhaimi Hashim**

Honourable Guests, Esteemed Members of P2SA and Valued Suppliers,

It is both an honour and a privilege to be together with you as we reflect on the remarkable achievements of Perodua in 2024—a year that has set new benchmarks in Malaysia's automotive industry.

### **Record-Breaking Sales and Production**

In 2024, Perodua achieved unprecedented milestones, selling 358,102 vehicles, marking an 8.4% increase from the previous year. Production also reached a historic high of 368,100 units, surpassing the company's installed capacity of 320,000 units. This accomplishment underscores Perodua's commitment to excellence and operational efficiency.

### **Collaborative Success**

These achievements are not solely the result of Perodua's efforts but are a testament to the strong partnership we share as part of the Perodua ecosystem. Your dedication, innovation, and support have been instrumental in reaching these milestones. Together, we have demonstrated that collaboration and shared goals lead to unparalleled success. Other than the sterling performance of PMSB and PGMSB, PSSB also achieved significant breakthrough. The growth in after-sales services was equally impressive, with vehicle intake rising to 3.4 million in 2024, a 9.7% increase from the previous year. This reflects Perodua's unwavering commitment to customer satisfaction and our commitment in supplying service parts. Our DDD for 1st Quarter 2025 averaged 97%.

As we move forward, let us continue to build on this momentum. The automotive industry is evolving, and with it, new challenges and opportunities arise. By maintaining our commitment to quality, innovation, and collaboration, we will not only meet these challenges but also set new standards for the industry.

### **Digital Transformation**

In order to stay competitive, we suppliers need to adopt digitalisation and Industry 4.0 technologies. Perodua, in collaboration with the Malaysian Investment Development Authority (MIDA), has initiated the MIDA-Perodua Digital Transformation Ecosystem Programme to assist suppliers in this transition. While this programme provides support, the process of digital transformation requires significant investment and adaptation, which is challenging for some suppliers.

Your Exco has been engaging relevant government departments and agencies including local financial institutions in order to support members in their digitalisation efforts be it in the form of funding or consultation.

In conclusion, I extend my heartfelt gratitude to each of you for your unwavering support and partnership. Together, we will continue to drive Perodua's success and contribute to the growth of Malaysia's automotive industry.

Thank you.

**Hj. Musa Zahidin Tan Sri Ahmad Zaidee**
