P2SA DIVISION
 P2SA ACTIVITIES

FOREWORD BY PERODUA AUTO CORPORATION SDN BHD, PRESIDENT AND P2SA ADVISOR

We would like to congratulate P2SA on your outstanding performance and contribution towards the production of 370,370 vehicles by Perodua in 2025. This achievement reflects the strength, resilience, and capability of the Malaysian automotive ecosystem in meeting increasing demands and scaling operations effectively when required.

While we believe that ICE models will continue to remain relevant both domestically and internationally for years to come, we also recognize that the transition towards EV technology is accelerating faster than anticipated. Nevertheless, we are confident that, with the right preparation and collaboration, we will be able to navigate this transformation successfully.

We would also like to extend our appreciation to P2SA members who have embarked on their EV journey, as we collectively move towards embracing technologies that will shape the future of the automotive industry.

Looking ahead, the challenges before us will be increasingly complex. Global conflicts and economic uncertainties continue to influence operating costs, while intensifying competition from both domestic and international automotive brands will further impact the industry landscape.

As such, it is important for us to remain focused on areas within our control and continue working closely together to strengthen operational efficiency, optimize resources, and manage costs effectively. Through strong collaboration and shared commitment, we are confident that we can build a more sustainable and competitive future together.

Thank you.

Mr Masaki Ogita and En. Abdul Hayy Ismail

FOREWORD BY PRESIDENT OF PERODUA SUPPLIERS ASSOCIATION

Members of the P2SA Executive Committee, representatives from Perodua's top management, and most importantly, our fellow suppliers—the lifeblood of Malaysia's automotive industry. We are here today at a pivotal moment. Looking back at 2025, we didn't just survive; we triumphed. Together with Perodua, we navigated a landscape of global volatility to achieve what many thought impossible.

The figures speak for themselves. In 2025, Perodua shattered records with a production of 370,370 units. This historic momentum propelled Perodua to a commanding 43.9% market share. But for us, the most important number is RM11 billion. That is the value of components Perodua purchased from local vendors last year—the highest in our history. This wasn't just a transaction; it was a massive injection of confidence into our factories, allowing us to expand our businesses and reinvest in the future.

In April 2026, the country's xEV market share stood at 14% of TIV. 2026 is the year we pivot from preparation to execution. The December 2025 launch of Perodua's first Battery Electric Vehicle—the QV-E—was a “clarion call”. Our message to the government and the industry is clear: P2SA is ready and eager for EV localization. We fully support MITI's non-discriminatory policies for local EV assembly. We are not here to just 'assemble'; we are here to manufacture. Our goal is to ensure that the 90%+ localization rate we achieved for Internal Combustion Engines (ICE) is replicated in the EV era. We must utilize and maximize the strengths within our ecosystem while leading the charge in e-mobility.

Digital Transformation

We need to expedite our digitalisation and Industry 4.0 technologies. Perodua & P2SA have vigorously engaged MITI, MARIi, MIDA, MPC, Sirim, SHRDC and other government agencies for collaboration to assist suppliers in this transition. Under MITI's New Incentive Framework (NIF) recently launched in March 2026, we now have new schemes that goes beyond tax incentives to enhance our efforts towards digitalisation.

To compete in 2026, 'good enough' is no longer enough. Operational Excellence must be at the forefront of our thinking way. Our Quality Control Circle (QCC) Convention are programs we must continue to embed a zero-defect mindset into our culture.

Automation / Autonomation / Regenerative A.I. & Sustainability

With the volume we now handle and looking at Perodua's target production of more than 371,000 units for 2026, manual processes are our biggest risk. I urge every member to utilize the gains from 2025 to invest in IoT and new technologies. We should also focus on Sustainability (ESG): Our benchmarking visits last year, such as the one to Betamek Electronics, showed us that ESG is not just a 'compliance' check—it is a competitive advantage. Transitioning to solar energy and 'green factories' is essential to remaining relevant in Perodua's long-term roadmap.

The journey toward 2027 and beyond will be challenging. Geopolitical risks and wars, intensifying competition, and technology shift is rapid. But remember: we are the backbone of a brand that nearly half of all Malaysians choose to drive. Let us move forward with 'Dynamic Synchronization.' Let us innovate with purpose, invest with courage, and manufacture with pride.

Thank you and let us have a productive AGM

Hj. Musa Zahidin Tan Sri Ahmad Zaidee

P2SA ACTIVITIES

SUPPLIER TRAINING PROGRAM (SUP) FOR THE YEAR 2025

Perodua Suppliers Association in collaboration with Perodua Development & Dojo Education (DDE), has been conducting the Training Program starting from January 2025 until December 2025.

The courses which were conducted are as follows:

- 1) Floor Management Development System (FMDS)
- 2) Total Productive Maintenance (TPM)
- 3) 4S
- 4) Quality Control Circle (QCC)
- 5) EMS & Safety
- 6) Forklift
- 7) Karakuri Kaizen
- 8) Perodua Problem Solving (PPS)
- 9) Basic Artificial Intelligence (AI) – New
- 10) Appearance Inspection One Judgement – New
- 11) Abnormal Treatment Robot – New

This program is only open to P2SA Members, which was truly beneficial for P2SA Company members. With a reasonable course rate, participants are exposed to conducive learning sessions with qualified trainers from Perodua, Development & Dojo Education (DDE). It is hoped that this opportunity will continue next year so that more participants will benefit from each course offered by the DDE, Perodua.

SDG - BENCHMARKING VISIT TO BETAMEK ELECTRONICS (M) SDN BHD

SDG - BENCHMARKING VISIT TO Betamek Electronics (M) Sdn Bhd was held on 12th August 2025 at Betamek Research Centre, Rawang Selangor. The half-day event was well supported by P2SA Members and the senior management of Perodua.

The objective of this event is to provide vendors with insight into Betamak's sustainability practices and how they align with SDG implementation by focusing on SSPOA evaluation. Not only to strengthen the bonds between the supplier network but also to recognize and celebrate exemplary practices in our industry — particularly in advancing the Sustainable Development Goals, or SDGs. As the principal, Perodua is very strongly supportive of our efforts towards SDGs.

Betamek sets a benchmark for all of us. As the winner of Perodua's Best Overall Vendor in 2023 and being bestowed the Platinum Award in SSPOA, and as an example of how a Malaysian manufacturing firm can align its operations with the UN's SDGs, particularly in:

SDG 9: Industry, Innovation and Infrastructure – through continuous R&D and investment in advanced manufacturing technologies.

SDG 12: Responsible Consumption and Production – with initiatives to reduce electronic waste and adopt circular economy principles.

SDG 13: Climate Action – through energy-efficient operations and their journey towards carbon neutrality.

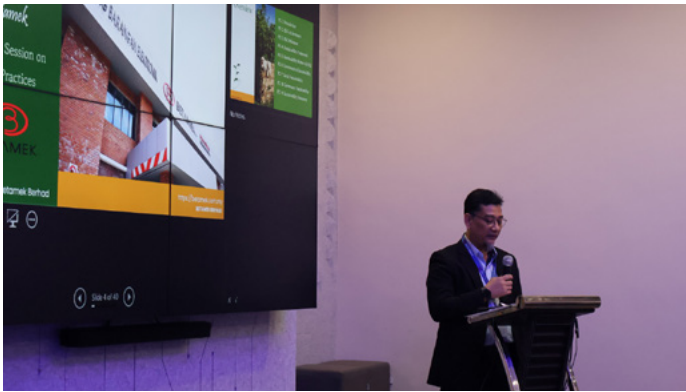

And importantly, SDG 8: Decent Work and Economic Growth – by creating safe, inclusive, and progressive working environments for their employees. More recently, they announced their Long-Term Incentive Plan (LTIP) via the issuance of ESOS to eligible employees.

Thank you Betamek Electronics (M) Sdn Bhd for hosting the event and for being a shining example of responsible corporate citizenship. May this visit strengthen our partnership and inspire greater collaboration across the Perodua ecosystem towards achieving the SDGs.
